# Certificate of Analysis

| | |
|---|---|
| **Product** | **Rose hydrosol** |
| **Origin** | **NZ** |
| **Appearance** | **Clear liquid** |
| **Odour** | **Characteristic** |
| **Solubility** | **Soluble in water** |

**NZ rose hydrosol is distilled as a whole-plant hydrosol to capture all the active properties of the plant, rather than as a byproduct of the steam distillation of essential oils in which most of the oil-soluble actives are removed.**
